## AN IMPORTANT GIFT

 + INCOME FOR LIFEPerhaps you are not now in a position to give appreciated assets. You may have none to give or you may not currently be in a position to make a substantial gift. In such a case, consider making a bequest to us in your will. Every dollar we receive completely escapes the federal estate tax.

But keep in mind that you can give appreciated securities right now and still keep the right to income from the assets for as long as you live. We get the use of the property only after your death, but you receive an income tax deduction this year for the value of what you have given to us - and you minimize capital gains tax on your paper profit, even if we sell the gift property and invest in higher yield securities.

There are several paths open to you if you are interested in making a deferred gift of appreciated property. Whichever you choose, the advantages are clear:

- You avoid capital gains tax on your paper profit;
- You or your beneficiary can receive a payout for life; and
- Though we cannot use the property during your life (or life of your beneficiary), you gain an immediate income tax deduction for the present value of our deferred interest.

## HOW TO MAKE

## A GIFT OF SECURITIES

- If the certificates are held in a brokerage account (in "street name"), have your broker contact us for instructions.
- If you possess the stock certificates, send the unendorsed stock certificates by registered mail to our office. Enclose a cover letter outlining the purpose of your gift, along with a description of the issues and the number of shares and certificates. Your gift is effective on the day you mail or handdeliver the certificate.
- Send separately a signed "stock power" form for each certificate with the name of the issue filled in and the signature guaranteed by a broker or officer of a national bank. It is a good idea to sign a blank stock power without filling in our name, which permits us to sell the stock quickly.

A BEQUEST COULD BE THE MOST IMPORTANT CHARITABLE GIFT YOU EVER MAKE.

## WHY ARE GIFTS <br> OF APPRECIATED ASSEIS <br> SO VALUABLE?

What is the best asset a person can give to charity? Tax-wise, gifts of securities, real estate or other assets that have gone up in value are the hands-down winners. Why? Because donors receive a double tax benefit: they can deduct the full fair market value of their appreciated assets - if owned more than one year - and they save again by avoiding all capital gains taxes on their "paper profit."

Take the example of Mrs. Green. The stock she purchased in 1985 for $\$ 200$ is now worth $\$ 1,000$. If Mrs. Green gives the stock instead of cash, we receive a gift of $\$ 1,000$ - the fair market value of the stock - and she can claim a
$\$ 1,000$ charitable deduction on her next income tax return. In a $33 \%$ bracket, that's a tax savings of $\$ 330$. She also avoids $\$ 150$ in capital gains and net investment taxes that would be due if she sold the stock. The result: after tax savings, a gift of $\$ 1,000$ costs Mrs. Green only $\$ 520$.

The chart below shows the tax savings from gifts of securities in various amounts where the stock has doubled in value, assuming a $15 \%$ capital gains tax rate.

actively traded securities, value is the mean (average) between the highest and lowest quoted sales price on the date of the gift. So timing can be very important.

- Your gift is effective on the date your stock is actually transferred from your brokerage account into our account. Transfers on a high-value day mean a bigger tax deduction for you. If you plan to contribute stock in a brokerage account, please have your broker contact our office immediately.
- Don'ł overlook mutual funds. Mutual fund shares can be given to us with the same beneficial effect as listed and actively traded stock. Your deduction is the public redemption value of the shares.
- Capital loss stock. If you own stock that has gone down in value, sell the stock and contribute the proceeds. You'll receive a gift deduction plus a capital loss deduction.
